To: Mr. Art Palmer Date: July 19, 1983

From: S. A. Hutcheson

Subject: D-141 -- Diesters of 2,5-Dihydroxy-1,4-Dioxane Release Flavorants

R&D Management has reviewed the noted disclosure and recommends that a patent disclosure be prepared pending determination of patentability. An in-house patent search on carboxylic acid flavorant release compounds seems appropriate.

Mr. Podraza has completed the work necessary to support an application and will be happy to assist in reviewing the results of any searches conducted. Please let us know if we can be of assistance.
